What Does "Kitchen Economy" Mean? Is it Found in Your Home?

A great many people thinks that "Kitchen Economy" means cooking without waste and they would be partly right—but only partly.

True Economy means making every dollar spent produce its utmost return in value. That's why

EV-RE-DAY

Oleomargarine With Butter Quality

is real economy. Churned in whole pasturized milk from Wisconsin's best dairies. It is rich in nourishment, tastes like fresh churned butter and has even higher food value than butter. Every food expert acknowledges this. Try Ev-Re-Day Margarine, the kind that has fresh butter taste and cuts your butter bills in half.

For those who prefer Nut Margarine. Best NUT MARGARINE is free from animal fats and churned by the best sanitary methods known by Wisconsin Butterine Co., Milwaukee, Wis., whose Motto is Cleanliness, Purity, Quality.

Use for Waste Lands.

Every state in the union has some part of the swamp and wet lands that for the entire country have an aggregate area of 102,500,000 acres—larger than Iowa, Illinois and Indiana combined and three-fourths as large as France. The agricultural value of these lands varies considerably, but specialists of the United States department of agriculture believe that large areas, if properly drained and cleared by public or private co-operation, could be transformed into productive farms.

Worth More Than That Now.

On June 20, in 1632, the patent of Maryland, granted to George Calvert, Lord Baltimore, was after his death made over to his son, Cecilus Calvert. King Charles signed the new patent and gave to the grant of land the name of Maryland, in honor of his queen, Henrietta Maria. While Lord Baltimore held the grant he paid for it yearly to the crown of England two Indian arrows, which are still on exhibition at Windsor castle, England.

Women Senators of Old.

Rome, as early as the year 219 A. D., recognized a senate of women. This senate, though, differed from most others by confining its considerations and its discussions to matters of etiquette and dress. The assembly had the approval of Elagabalus and held its meetings in the Quirinal. Cruelty, extravagance and vice were the outstanding characteristics of the reign of Elagabalus. Hence, the necessity of having conferences of the sort.

Koreans Well Advanced.

The Koreans are much superior to both Japanese and Chinese in culture of heart and in mentality. They are progressive on constructive lines; in economics they equal America, and their spiritual side is well balanced, both men and women being eager for knowledge on ethical lines. They are reticent and refined in their moral nature.—Chicago Daily News.

Famous Name in Boston.

Three Josiah Quinners have filled the office of mayor of Boston. The first Josiah Quincy to become mayor served six years, from 1823 to 1829, later becoming president of Harvard college. His son, Josiah Quincy, Jr., was mayor for three years, from 1846 to 1848, and he was the grandfather of the Josiah Quincy who was mayor for four years, from 1896 to 1899.

Effect of the Circus.

After all, civilization is sometimes a bore. The circus carries us back to the freedom of the great beginning. Wherefore, even psychologists forget their trades in such days and become for the moment grown-up children like the rest of us, responsive to the wild blood of their remote progenitors.—Baltimore Sun.

The Hindus and the Lotus.

The Hindus compare India to the lotus, the petals representing Central India and the surrounding leaves the divisions of the country. The design is much used in eastern temples and architecture generally, and the plant is cultivated in public gardens. A pond in the Taj gardens at Agra holds pure lotus blossoms.

Powerful Nitroglycerin.

The greater part of the world's output of glycerin is used for nitroglycerin, prepared by the action of a mixture of nitric and sulphuric acids on glycerin, which forms the chief ingredient of many modern high explosives and smokeless powders, used for military, mining and agricultural purposes.

One day I sent Ralph to a store several blocks away. In the meantime it rained, and immediately at the close of the shower he returned and I asked him anxiously: "Why, Ralph, where were you when it rained?" He replied: "I wasn't anywhere—I was running."—Chicago American.

Birds With Brains.

Naturalists have arrived at the conclusion that the brain in birds is large in proportion to the body. If it is admitted that intelligence depends upon the weight of brain, then the goldfinch must be placed at the top of the list of birds; the brain weighs one-fourteenth of its whole body.

Napoleon's Temper.

Defeat was so distasteful to Napoleon that, so it is recorded, when he found an opponent at chess getting the better of him he would with a quick movement sweep board and pieces off the table to the ground.

Electric Shotgun.

A patent has been granted for an electric shotgun in which sparks discharge cartridges that may be filled with an explosive gas or liquid as well as powder.

Lighter Than Cork.

Sunflower stalk pith, which is about ten times lighter than cork, is used in a life saving apparatus invented by a Russian.

Optimistic Thought.

He deservingly loses his own property who covets that of another.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

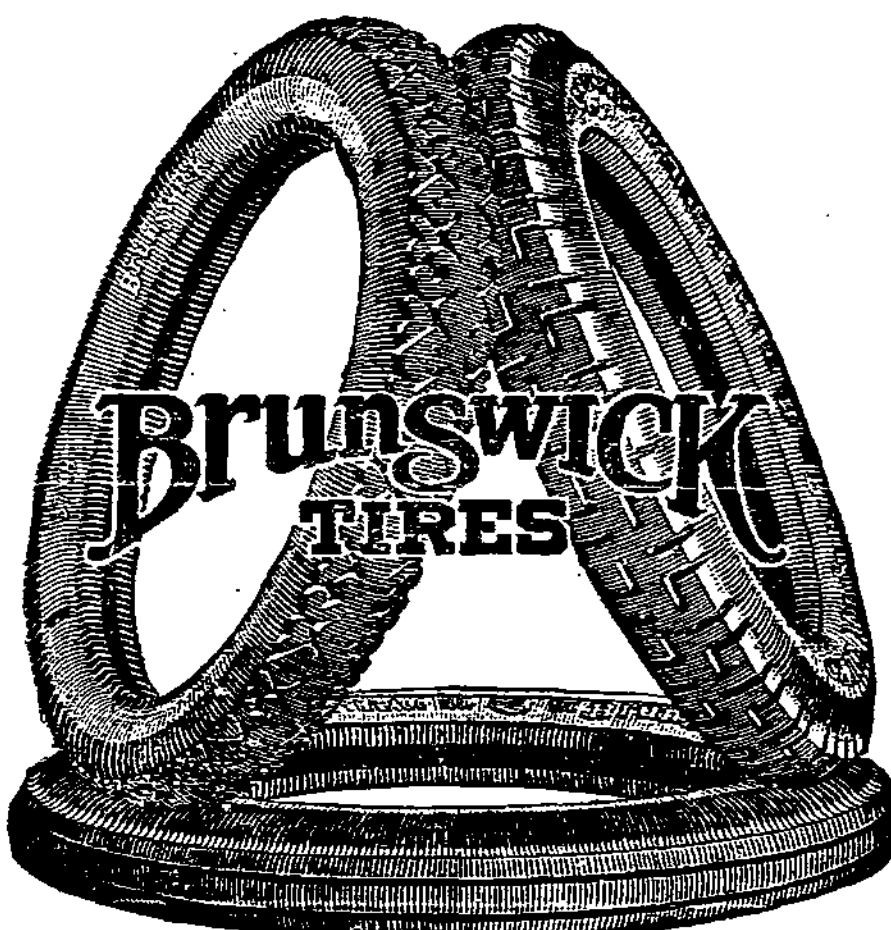

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

Pietists.

This religious sect was also called "Separists." It was a sect of the Lutheran church which preferred private to public worship. The founder was Spencer of Leipsic and his home was called "Collegia Pietas," because his disciples met there. Ordained clergymen had no marked precedence and anyone was permitted to address the assembly, as among Quakers.

History Repeats Itself.

Briggs and Fowler were talking of the great wars fought in the days when the world was considerably younger. "You know," said Briggs "it always seems to me that those old warriors were very much like our modern financiers." "What do you mean?" asked Fowler. "Well they were always investing some one else's capital, weren't they?"

Possible Origin of "Loafer."

An old Dutchman in New York had the misfortune to have a shiftless young American fall in love with his daughter. He disapproved of this and used to say to her. "Here comes that loafer of yours, the idle good for nothing." How the "a" got into the word is not known, but an idle man hanging around came to be called a "loafer."

When to Smile.

As long as things go well with some folks, they are chipper as a basket of chips; but the minute they feel a pin prick of hard luck, their faces are as long as a hammer handle. Men with the real stuff in them smile the biggest when the tug at their hearts is hardest.

Autumn Leaves.

The infant school is out, and a crowd of tiny children come chasing each other down the road, laughing and calling, running in the wind, their cheeks rosy, their eyes dancing and their hair flying. Just as they reach me a big gust of wind shakes the trees above their heads, and quantities of yellow, brown and golden leaves come swirling down over and around them—and children and leaves all whirl away together. Whereupon I paint a mental picture, all russet and amber and little laughing faces, and call it "Autumn Leaves," for not all our happiest pictures get placed on canvas.—Christian Science Monitor.

Buenos Aires' Rapid Growth.

Buenos Aires is one of the fastest growing cities of the world. The census of 1914 showed 1,575,800 inhabitants, and the population is now estimated to be more than 2,000,000, since immigrants are arriving at the rate of more than 10,000 a week. Until recently the city has retained most of the characteristics of the small Latin-American city.

Practical Christianity in India. Four model farms are connected with the Scotch Presbyterian industrial mission at Chingleput, South India, where native Christians are taught to support themselves.

"Palmy Days."

The origin of the phrase, "palmy days," arises from a custom of the ancient Romans. A victorious gladiator received a palm branch as a symbolic reward for his brave deeds.—Brooklyn Eagle.

EXPECTING THE IMPOSSIBLE

How many years ago was it that a transportation genius, James J. Hill, warned the nation that the railroads should have a billion dollars a year to devote to their development? He foresaw the day that even with this kind of support the railroads could not care for all the business of the country. He urged the development of our waterways for slow freight, pointing out that the growth of the nation, dependent as it was on transportation, would become hopelessly bogged unless vision to see what it would become and courage to prepare for it governed our action. Instead we pursued another course and are now paying the penalty for our shortsightedness.

It is idle to expect the roads now to make up lost ground in a few months, or a few years, and to talk now about Government ownership, because they are not going to do so is to show vacillation in judgment that is very little to our credit. We should make up our minds to go through with the scheme outlined for their management and control, satisfied that if individual energy, individual initiative and promise of reward for overcoming difficulties do not find a way, there is nothing to be hoped for from bureaucracy.

We are not given to underestimating difficulties with which we have to cope, and complaints of what we are now suffering and are likely to suffer owing to the interruption of traffic are not being in any sense minimized in the telling. We ought to go ahead in the reasonable expectation that some of the lions in our path will disappear within a reasonable time.

Extensive improvements which will greatly augment the coke tonnage of the Monongahela river are being planned by the Consolidated Coke company, whose headquarters are in Pittsburgh. It was said authoritatively a few days ago that the company is contemplating the construction of a permanent loading landing at Gray's Landing, Fayette county, and that when completed the concern's entire output at that point aggregating 4,000 to 5,000 tons daily will be shipped entirely by river.

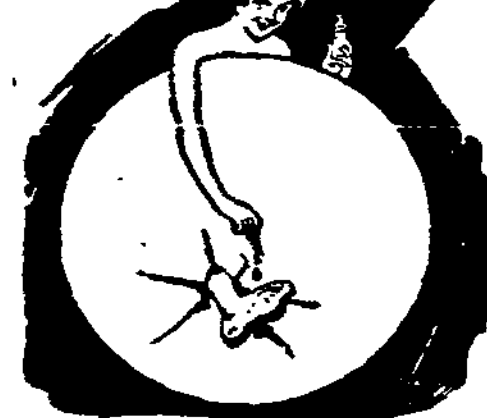

The same company this week purchased the Sharpnack mines of the Superior Coal company, located a short distance above Brownsville. The tract includes approximately 600 acres of Pittsburgh coking coal. The mines are to be electrified, and a daily output of 2,000 tons is expected soon. Shipments from these mines will be by rail.

Quick Action Corn Cure

"Gets-It" Stops Pain Instantly and
Corn Soon Lifts Right Off

A few drops of "Gets-It" quenches
corn pains like water quenches fire.
Gives you immediate relief.

"Gets-It"
Fights It Out

The corn begins to lose its grip at once. In a day or two it is so loose that you can lift it off, roots and all, with thumb and finger. That's the last of it, as millions have found out. It is the simple, effective and common-sense way to be rid of corns.

"Gets-It" is the never-failing, guaranteed, money-back corn remover, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago.

Sold in Charleroi and recommended as the world's best corn remedy by Frank J. John and Piper's Pharmacy, Carrolls Drug Store.

TOW BOATS ARE RUNNING AS USUAL

River transportation was affected but little on Wednesday or Thursday by the strike of the Longshoremen's Association which went into effect late Tuesday afternoon. Transportation managers of the various companies towing on the Monongahela river said that within a few hours after the strike became effective, new crews manned the boats, which then proceeded as usual to the mines.

It was officially reported Thursday night that all of the steamers of the Carnegie Steel company are running double crew as usual and are keeping up the tonnage to the usual standard. Other boats are also running double crew, and are keeping up the supply of fuel for the various mills and industries. If the conditions of the past few days are a criterion the strike of the Longshoremen will not last very long. There appears to be too many men willing to man the boats for the wages now offered by the steamboat owners.

Master Charles Jones of Fallowfield avenue accompanied Mr. H. W. of the Busy Bee restaurant, to New York on Thursday, where they will spend several days.

Mr. and Mrs. Wm. Faulks and children Ruth and Olen and Miss Helen Phillips visited their parents in Uniontown.

Mrs. John Ellenberger and son Jack are visiting the former's parents Mr. and Mrs. C. C. Ames of Columbia, Virginia.

The Sugar Situation.

There is little to say about sugar. Such information
as is obtainable shows a large reduction in the estimated
Cuban crop. Refiners are paying \$23.07 per hundred for
Cuban raw sugar. This means 30 cents a pound or more
to the consumer. The situation is firm with higher prices
in sight. The demand is far in excess of the supply.

We have rolling a round lot of pure American refin-
ed granulated sugar, put up in 100 and 25 pound sacks,
due to arrive in a day or so. We paid a premium over
price in order to secure it. We firmly believe that it is
time for you to cover your wants for the coming canning
season. Let us have your order now and we will distri-

How Many Miles From a Cord Tire?

Men are everywhere telling remarkable tales about mileage from Miller Cords. But remember that mileage varies with conditions. Size and load, road and care affect it.

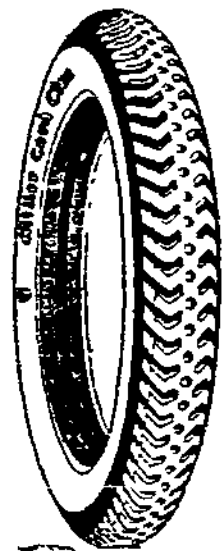

One man who has sold and watched many thousand Miller Tires says this:

"I find that Millers excel other tires in service from 50 per cent to 75 per cent."

The Hudson Taxi Co. of Detroit reports a 15,000-mile average on rather heavy taxis.

Tread Patented

Center tread smooth with suction cup. For firm hold on wet asphalt. Geared-to-the-Road side treads mesh like cogs in dirt.

You can dance to the very last note

With the Columbia Grafonola you can dance to the last lingering note and step. The Non Set Automatic Stop takes care of that. This exclusive Columbia feature is at its best for dancing. There's nothing to move or set or measure. Just start the Grafonola and it plays and stops itself.

With the Only Non Set Automatic Stop

This long-wanted improvement is now a part of the new Columbia Grafonola. Built right into the motor. Invisible. Automatic. Operates on any record, long or short.

No other phonograph has it. All other stops must be set by hand for every record. No other phonograph can get it. Basic patents protect the Columbia Non Set Automatic Stop.

It is the last touch of convenience added to the Columbia Grafonola's recognized leadership in beauty of design, richness of tone, and reliability of mechanism.

Ask the nearest Columbia dealer for a demonstration of the stop that needs no setting.

ROUND THE CORNER

ABOUT THE LAST ARGUMENT

After That It Was Time for Hubby to Get Busy and Buy Her That Davenport.

What she desired was a new davenport. She had talked davenport until her husband's soul was tired. She made it her business to be carefully scrutinizing the furniture advertisements every time he caught her reading the newspaper.

She left pictures of davenports lying around on the table. She sent for furniture catalogues and he always found the pages open that contained davenport illustrations.

The other evening he glanced over her shoulder as she was going through her regular evening performance with the newspaper.

"More davenport advertisement, I suppose," he murmured a bit sarcastically.

"No, John, dear," she replied in similar vein. "You would buy me this with far less persuasion."

Then he took a second look at the paper. She was reading a coffin company's advertisement.

Somewhat Humorous "Ad."

Bill Nye, known in his day as a humorist, owned a cow which he wanted to sell, and put an advertisement in the paper which read like this: "Owing to ill-health, I will sell at my residence, in township 19, range 18, according to the government survey, one push raspberry cow, aged eight years. She is of undoubted courage and gives milk frequently. To a man who does not fear death in any form she would be a great boon. She is very much attached to her present home with a stay chain, but she will be sold to any one who will agree to treat her right. She is one-fourth short-horn and three-fourths hyena. I will also throw a double-barrel shot gun, which goes with her. Her name is Rose. I would rather sell her to a non-resident."

Set Aim in Life.

A definitely fixed goal is a challenge to ingenuity. That is especially true for the trail blazer. Haphazard goals are apt to be the avenue to the way of least resistance. Attaining them is merely a matter of finding the easiest short-cut to them. With a ruling purpose it's different. Every possible motive and means is marshaled to gain the end. Oldtime methods are seen to fall when most needed. So the youthful dreamer puts his wits to work to discover new methods to gain the point. And it's surprising what an amount of unrated genius there is waiting to be called forth by a great occasion.—Exchange.

EARTH IS GROWING COLDER

Old-Fashioned Arctic Winters Seem to Be More and More Recognized Instructions.

How do the old-fashioned people account for the fact that this second decade of the twentieth century, now near its close (the decade, not the century) has produced more "old-fashioned winters" than any like recorded period in the past? "The climate is growing milder," some people say. It appears more likely it is growing steadily colder. The oldest inhabitant cannot remember a more Vermontish sort of a winter in Boston than the one which has happily come to an end, remarks the Transcript of that city. One would, indeed, rather expect it to be so. Our moribund earth is constantly radiating its heat into the shivery spaces between the planets. The sun is pumping away into regions far beyond the planets, with a positively inconceivable recklessness of wastefulness, its stores of heat and energy. We are trying to warm up the milky way and are only chilling ourselves in doing it. The process has been going on for a million years and more. Perhaps it is beginning to tell on the weather at Boston. Year by year the old-fashioned winters will be getting more new fashioned—until at last Guinea and Amazonia will be sending their Arctic expeditions to Massachusetts bay, as we are now sending MacMillan to Baffin's bay.

History of the Melon.

Melons were first extensively cultivated in France early in the seventeenth century, but were known to the ancients from the commencement of our era. The Egyptians grew them. They are said to have been carried to America by the Portuguese.

Making Billiard Balls.

Experience has shown in the making of billiard balls that, as it dries, ivory shrinks, so they are turned in the rough and kept in a warm room for a long time—sometimes two years. Then after shrinking they are turned again.

Lucid.

Little Roy had just returned from a week's visit to his aunt, and was trying to describe the folding bed he had been sleeping in. "It lays down at night, mamma, and stands on its hind legs in the daytime."—Boston Transcript.

The Other Way Round.

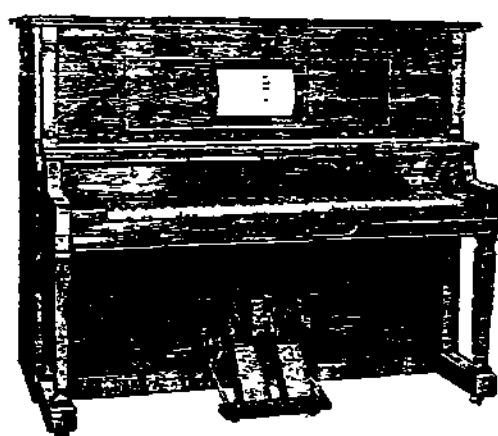

Merrington—"Many a wise word is spoken in jest." Stingsby—"Yes, but they can't compare with the number of foolish ones that are spoken in earnest."

RHEUMATISM OF THE WORST KIND POSITIVELY RELIEVED

Money Back If It Fails

No matter how chronic, acute or long standing your Rheumatism, Neuritis, Lumbago, Exema or Skin Eruptions may be, here at last is the cure. It is a fact, you will not lose a penny, for we will refund your money if it fails to cure you. Read this remarkable case: "It is with great pleasure that I am writing you of the wonderful merits of SULLFLOID for Neuritis. My wife has been a terrible sufferer for three years from this disease and could not walk. She was the use of braces. Her joints were sealed to twice their normal size. Her pains were agonizing. For two years she was bedridden. After using SULLFLOID, you can imagine my surprise last evening when she walked from her chamber to the parlor in her stockings. From the first time in three years she has been able to bear weight on her feet without the use of braces. Thinking this could please you, I am, respectfully, BENJ. P. WALKER, New York City." SULLFLOID is not a medicine. It is used as a bath and is exactly the same as you get in the famous Hot Sulphur Springs resorts. It is absolutely harmless. A complete treatment will drive all pain away. Try it. If it fails we will refund your money. Booklet on request.

As to Shaving.

When it comes to shaving, we have the word of Pliny for it that Scipio Africanus was the first man who ever shaved everyday. Whether Mr. Africanus shaved himself or was shaved by a barber, Pliny does not say, but it may be gathered from certain remarks of Tallemand that this is an important point in any man's habits. Asked if Napoleon cut his own whiskers, the great French statesman replied: "Yes. One born to be a king has someone to shave him, but they who acquire kingdoms shave themselves."

Man's Wonderful Makeup.

No difference how sour a man looks, he contains about 60 lumps of sugar of the ordinary cubical dimensions, and to make the seasoning complete, there are 20 spoonfuls of salt. If a man were distilled into water he would make about 23 quarts, or more than half his entire weight. He also contains a great deal of starch, chloride of potash, magnesium, sulphur and hydrochloric acid in his wonderful system.

"Age Cannot Wither."

A tradesman was brought before the magistrate charged with having sold unwholesome articles for consumption as food. The charge was fully proved. "I wish to point out to the court," said counsel for the defense in a dignified tone, "that the house of business that I have the honor to defend was founded in 1802." "Has it renewed its stock since that date?" asked the magistrate.

Explaining "Yankee."

Yankee "was a cant, favorite word with farmer Jonathan Hastings of Cambridge about 1713. . . . A Yankee good horse, or Yankee cider and the like. . . . The students (of Harvard) used to hire horses of him; their intercourse with him, and his use of the term on all occasions, led them to adopt it."—Will Gordon, "Independence of United States," volume 1, letter 12 page 482.

One Good Point About Him.

Robert did not seem to think the new baby's looks were all they might be. It was his first view of a real new baby and he stood looking down at the little mite with wonder in his eyes. Suddenly it began to cry most lustily and he looked up quickly with a pleased expression in his eyes and said: "Well, mother, he has lots of pep in his cry anyway."

Only Thing He Could Do.

Mother wanted to go to the store, so she told Jack to take care of Ramona the cat, and not let her out of his sight. When mother returned, she found Ramona tied to the fernery with a rope around her neck. Mother asked Jack why he did this and he said: "Well, mother, that is the only way I could keep Ramona in my sight."

Study in Strength.

The muscles have their periods of development and decline. The lifting power of a youth of seventeen is 230 pounds; in his twentieth year this increases to 320 pounds, and in the thirtieth year it reaches 365 pounds. By the fortieth year it has decreased eight pounds; at fifty the figure is 330 pounds.

Chinese Love Horses.

China is one of the last of the nations of the world to adopt and enjoy the motorcar. Indeed, the conservative Chinese shrink from anything that seems to cast any aspersions upon horses, for equines have played a big part in tradition, history and the life of that mysterious land in the far East.

Advantage of Travel.

Travel is a great educator and we noticed in the conversation at luncheon yesterday that a little dab of warmed-over codfish, placed out with one egg to make it somewhere near enough, had become casserolette of Newfoundland cod aux oeufs.—Ohio State Journal.

Use for Electric Fan in Closet.

An electric fan has not fulfilled all its obligations when it has cooled your house. Set it revolving in a dark, airless closet; it will bring in its wake ventilation, if the door is left open during the process. In addition it will dispossess the moths.

So It Goes.

The Lowry City Independent has an idea that the old fellow who became rich by burning the midnight oil doubtless now has a son who is prodigal with the midnight gas.—Kansas City Times.

Strong Family Resemblance.

"Contentment," remarked Shimbone, "am a mighty fine thing; de only trouble 'bout it is it's kin' o' habd to 'tinguish from jes' plain laziness."—Boston Transcript.

Truly a Big Mistake.

"A man dat's allus in trouble," said Uncle Eben, "is mighty liable to make de tremenjous mistake of bein' proud of de fact."

MILLION DOLLAR JUNE SALES

A Month Ago This Store Started Something!

The KAUFMANN & BAER store was the first big store in Pittsburgh—one of the first in America—to launch a campaign to bring down prices.

Like a prairie fire the movement has spread over the country. But the K. & B. store was in the van. We took the bull by the horns, and with our customary initiative began the campaign of stabilization that is bound to benefit the public at large.

All during the month of May we have been presenting a series of offerings never equalled before in Pittsburgh. As a result, this store has been riding on a wave of the greatest prosperity. It has chalked up new sales-records—increasing its volume of business in tremendous percentages. It has borne fruit in the—

First break in prices!

Wholesalers and manufacturers have fallen in line. A backward Spring season, badly

disorganized transit facilities and a curtailment of credit by some banking institutions are forcing on the market many large lots of reliable merchandise at lowered prices.

Here, too, K. & B. resourcefulness scores again. With our hands full of READY CASH, we have taken advantage of every opportunity, where good, reliable merchandise of KAUFMANN & BAER quality could be had below the market prices. Hence we are able to announce beginning Tuesday (Store closed Monday, Memorial Day) the

Million Dollar June Sales

A Greater and More Determined Blow To Lower Living Costs

THIS is a public service institution. Its first duty is to its patrons. Under conditions such as prevail now it would fail in that duty were it to slacken its efforts in the campaign to lower costs which it was the FIRST store in PITTSBURGH to start.

To the many extraordinary purchases just made, we shall combine many large lots from our already low-priced stocks and mark them on a very close margin of profit.

In Many Instances the Merchandise Will Be Sold Without Profit!

So, be prepared to come to Pittsburgh Tuesday and on each and every other day during the month of June—and to witness an avalanche of bargains that no other store in Pittsburgh will duplicate, or can duplicate.

"It's more important to court the missus when you've married her than before," said an English judge, addressing a men's meeting. "But," remarked a man in the audience, "you don't want to run after a 'bus when you've caught it." The missus isn't a 'bus," was the only retort suggesting itself to the judge.

MILLION DOLLAR JUNE SALES

YES!

Kaufmann & Baer's
did start something
and they're keeping it up!

How much the people everywhere appreciate this new June drive to bring prices down is being proved every day by the record-breaking response. It's just like starting our Anniversary Sale all over again—for people are fairly swarming here every day of the sale.

A month ago Kaufmann & Baer Co.—true to its usual initiative—was the first great store in Pittsburgh to launch a campaign for lower prices. Its efforts during May received such enthusiastic approval from Pittsburgh's thrifty shoppers—and incidentally brought us the largest volume of business in our history—that we have inaugurated the

MEMORIAL SERVICES WILL BE HELD ON SUNDAY AFTERNOON

Service Men Arrange To Honor Memory of Deceased Comrades

ARRANGE ATTRACTIVE PROGRAM

The Soldiers' Committee in charge of the Memorial exercises to be held Sunday afternoon, have arranged a program suitable for the occasion.

The exercises will be held in the High School Auditorium, on Crest avenue, beginning at 2:30 o'clock, p. m.

Speakers have been secured to make appropriate addresses in commemoration of the great sacrifices made by soldiers, sailors and marines many of whom sleep on foreign battlefields.

The committee requests the attendance of all former service men at the services and desires that as many as can do so, wear the uniform. The meeting is open to the public and a full capacity attendance is expected. Arrangements have been made to have the school hall suitably decorated for the occasion.

The following program has been arranged:

Invocation.
Music, by Pormby—Mixed Quartet.
Memorial address—Rev. John R. Burson.
Music—Duet.
Oration—S. D. R. Hill.
Post Memorial Exercises.
Recessional—Quartet.
Benediction.

Soldiers Called To Meet

The members of the American Legion and Veterans of Foreign Wars are requested to meet at the municipal building, Sunday, May 30, at 2 o'clock p. m., and march to the Memorial services at the High school in a body. All ex-soldiers are urged to fall in line. Seats will be reserved to accommodate the soldiers.

Morning Exercises.

The George R. Craft Post, 256, V. of F. W. will hold Memorial Services at the Lock Four Honor Tabernacle at 8:00 a. m., Monday, May 31st.

Leaving Lock Four at 9:00 o'clock by special car they will proceed to Belle Vernon cemetery, where services will again be held. All soldiers, sailors and marines, relatives and citizens are invited to attend the services.

To Ex-Service Men.

All ex-service men are requested to meet at the Municipal building, May 30th, in uniform, to attend the religious memorial exercises, at 2:00 o'clock sharp.

A. B. Houseman, chairman.

George Newton has been drawn as a petit juror in the United States Court, now sitting in Pittsburgh, and will report for duty next Tuesday morning. A number of important cases are listed for trial at this term of court.

SON IDENTIFIES BODY OF MOTHER

The body of the woman found floating in the river near the sand-boist of the plate glass works early Wednesday morning, was identified Thursday afternoon as that of Mrs. Bertha Schaven, of 18 Gershon street, North Side, Pittsburgh, by her son Otto Schaven, of West Etna, Pa.

The body, after being taken from the river, was transferred to the Crowley morgue, where Mr. Schaven made the identification. According to his story, his mother had left home for a walk about 4 o'clock Tuesday afternoon, and as she did not return that evening the family naturally became alarmed, and notified the police. They received no word of her whereabouts until they got the message from Mr. Crowley, saying that he believed the woman whose body was at the morgue was the missing one.

Mrs. Schaven had two sisters at Stockdale, Mrs. William Smith and Mrs. Herman Ermelick, both of whom were notified of the death of Mrs. Schaven. The body will be taken to Pittsburgh to her late home and funeral services held on Sunday, with interment in Homewood cemetery.

SURPRISE FOR MISS TAYLOR BY SELF DENIAL CLASS

Miss Olive Taylor, teacher of mathematics in the High school, was given a very pleasant surprise on the eve of her departure for her home in Warren, Pa. Miss Taylor has been teaching the Self Denial class at the Washington Avenue Presbyterian church for some time. She was invited to dinner last evening by one of the members, giving the girls an opportunity to take possession of her rooms at the home of Dr. Faddis. When she returned at 8 o'clock fifty-two girls gave her a hearty greeting and took her to the school of the church, where lunch was served and where a delightful social hour was spent. As a token of love and esteem the class presented Miss Taylor with a beautiful purse, each member contributing to the amount.

The marriage of Miss Catherine Delfie and Patrick Coney was solemnized in the Mother of Sorrows Catholic church Wednesday morning. The attendants were Miss Ada Parenti and Earl McGuire. A wedding dinner was served at the home of the bride, after which the bridal party left for a short trip. The couple will make their home on McKean avenue.

COAL PRICES ARE HITTING HIGH SPOTS

The coal market, according to good authority, has gotten beyond control of that group of conservative operators and brokers who would keep the price level within reasonable bounds. Bertha Schaven, of 18 Gershon street, North Side, Pittsburgh, by her son Otto Schaven, of West Etna, Pa., is plying against each other in the already high market for the available tonnage and have sent the price a high 7.47 munes, a figure greater than prevailed during the pre-war coal boom before the fuel industry was placed under regulation by the Lever act. It is, however, such a market that many react as quickly as it developed and may leave many small operators and brokers "holding the bag."

Brokers and operators, however, are facing two definite risks. One is that the coal may be confiscated enroute by the railroads and the other that the consignment may be rejected upon arrival at tide water in event the market breaks before it is delivered.

Brokers have found considerable difficulty in collecting from the railroads at the high prices, for the transportation lines are well posted as to government statistics as to what the price of coal ought to be, and operators who have had experience in that line are now wondering what will happen when the roads get a bill for some 7 coal.

DEFENDANT WINS IN DAMAGE SUIT

In the case of Mr. and Mrs. Paul Booth against the Pittsburgh Railways company on trial in court at Washington, the jury brought in a verdict in favor of the defendant. This case was tried before Judge Brownson and given to the jury Wednesday afternoon. When it was first tried at the February term of common pleas court the verdict was for 1,000 in favor of the plaintiffs. The defendant corporation secured a new trial on the grounds of new evidence. The action was brought to recover damages for personal injuries alleged to have been sustained by Mrs. Booth when she descended from a car of the defendant company at the West Belle Vernon stop.

American Legion and Veterans of Foreign Wars Unite in Program

EXERCISES AT THE HONOR ROLL

At a joint meeting of the American Legion and Veterans of Foreign Wars of Charleroi, the following program was outlined for the observance of Memorial Day, Monday, May 31st:

All former soldiers and sailors and marines will assemble at the municipal building, in uniform if possible, at 1:00 o'clock p. m., May 31st.

All automobiles for the use of crippled service men, old soldiers and mothers of the soldiers will assemble at the municipal building at 1:30 p. m. All persons having cars for this purpose will report to the Officers of the Day, at the above time.

The Boy Scouts and the Fraternal Order of Patriotic Americans will be present to act as guards of honor.

Parade will leave the municipal building at 1:30 sharp, moving up Fourth street to Washington avenue, thence to Sixth street, to Fallowfield avenue, to Tenth street, to McKean avenue, and then up McKean avenue to Fifth street, arriving at the Honor Roll at 1:00 o'clock p. m., where the following program will be carried out:

1. V. of F. W. burial exercises.
2. Presentation of French certificates to the relatives of the deceased soldiers of the world war by Major Kepman.
3. Presentation of flag of Comrade Jacob Wise to Ladies Auxiliary of George Raymond Craft Post, V. of F. W., by Rev. John R. Burson.
4. Presentation of flag to American Legion from Mr. and Mrs. Delbert Carson.
5. Oration of the day by Chaplain H. Vernon Baker, formerly of the Fifteenth Engineers.

At 3:30 p. m., the march will continue to Calvary and Charleroi cemetery, where separate services will be held.

At 4:30, return to Fifth street where retreat will be held upon arrival.

Let us endeavor to place this day upon the pages of history as THE Memorial Day in Charleroi.

By order of
E. W. Patton,
E. H. Geho,
Officers of the Day.
